REASONS FOR ALLOWANCE

1. The Amendment and applicant's remarks filed May 8, 2004 has overcome the rejection set forth in the Office action sent March 30, 2004.

The limitations of a method of manufacturing an ultrasound transducer comprising cutting a composite piezoelectric plate to form at least one slit in the plate, wherein the at least one slit has a radial orientation and extends from a peripheral edge of the disc towards its center; and forming the plate into a hollow spherical cap by deformation, wherein the two facing, oppositely situated free edges which bound the slit are substantially in contact with one another so as to minimize the internal stresses in the cap caused by the deformation, in combination with other presented limitations, are neither disclosed nor taught by the art of record.

Claims 1-11, therefore, are allowable.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Binh-An D. Nguyen whose telephone number is 703-305-5713. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrea Wellington can be reached on 703-308-2159. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
